

## Minutes of the IED Meeting

Go To Meeting 15<sup>th</sup> March 2017

### **Those present.**

Mark Neal  
David Edwin-Scott  
John Morton  
David Mitchell  
Sandy Van Den Broeck  
Ronald van Noesel  
Francesca Torriani

### **1. Apologies**

Wolfgang Schoepplein, Ralf Vogel, Mikael Edvardsen

### **2. Overview.**

DM outlined the current Industrial Emissions Directive 2010/75/EU (IED) and explained that this had replaced the Integrated Pollution Prevention and Control Directive. The purpose of the meeting was to bring our BAT document up to speed and align it with the IED. DES and DM expressed some concern that bringing the document up to date was a step forward however the IED programme was far more in depth and includes new subject areas such as noise, energy consumption and odour. It was also pointed out that the IED BREF's were structured around Industries and our BAT document was more focussed on products. DM also stated that there were at least two sections which impacted on Expansion Joints specifically and this ESA division would also be required to participate.

There was a brief discussion on the need to adopt a common approach across all divisions to ensure consistency, ensure that the document was user friendly and produce it electronically with links to help maintain its accuracy over time.

### **3. Actions**

DM/MN would produce a project outline document which would provide a road map going forward for the IED team and provide direction and specific actions for each division. MN/DM would include links to the relevant sections of the IED to help guide individuals working on the project.

MN to attend the IED meeting 5<sup>th</sup> April 2017.

MN to provide BATIS Login details for DM

MN/DM to meet again on the 22<sup>nd</sup> March

Date of next meeting TBA by MN following the work with DM  
MN 16/3/17
